

TAYYABA PATEL

Frontend Developer | React.js | TypeScript

pateltayyaba28@gmail.com | Pimpri Chinchwad, Maharashtra, India | LinkedIn: linkedin.com/in/tayyaba-patel | GitHub: github.com/pateltayyaba28-sudo

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building production-grade healthcare SaaS applications. Strong in React.js, TypeScript, Next.js, Redux Toolkit, Vite, REST APIs and modern UI architecture. Built two products from scratch and contributed to 7+ production applications, delivering dashboards, healthcare workflows, AI integrations, scheduling, billing, document management, authentication and CRM features.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React 18/19, Next.js 15, Vite, Redux Toolkit, Redux Saga, React Query

UI & Forms: Material UI, Ant Design, Formik, Yup, ApexCharts, Chart.js, Leaflet

APIs & Real-time: Axios, REST APIs, SSE, WebSocket

Backend & Data: Node.js, Express.js, MongoDB

Cloud & DevOps: AWS S3, Azure DevOps, Docker, Git, Jira, Figma

Auth & Payments: Keycloak, Auth0, Stripe, Braintree, Authorize.Net

Healthcare: HIPAA, FHIR, ICD-10, CPT

PROFESSIONAL EXPERIENCE

Thinkitive Technology — Frontend Developer | Jul 2024 – Present

- Built ScoutITAI and Nemi Care from scratch, taking frontend features from architecture and UI implementation through API integration and production delivery.
- Delivered healthcare modules across 7+ production applications, including scheduling, resident charting, discharge workflows, insurance, documents, attendance, billing, authentication, dashboards and CRM.
- Implemented reusable React/TypeScript components and integrated REST APIs, real-time data flows and role-based application behavior.
- Worked with Redux Toolkit/Redux Saga, React Query, Material UI, Ant Design, Vite and Next.js across production applications.
- Contributed 2,000+ commits and 1,000+ merged pull requests while collaborating through Git, Jira, Figma and Azure DevOps.

SELECTED PROJECTS

ScoutITAI: AI observability platform featuring dashboards, chatbot, billing, onboarding and theme management.

Nemi Care: LTC healthcare portal with scheduling, resident charting, discharge workflows, insurance, documents and attendance.

EverBetter: Full-stack healthcare platform with custom form builder, AI assistant, billing, telehealth and chat.

E-Care CRM, Cinch EHR, LANA & Nota: Frontend development, API integration and healthcare workflows.

EDUCATION

Bachelor of Engineering (Information Technology) — Dr. Vithalrao Vikhe Patil College of Engineering | 2020–2024

CAREER HIGHLIGHTS

- Built 2 production products from scratch.
- 2,000+ commits and 1,000+ merged pull requests.
- Worked on a US patent-pending product.
